Subject: Label Notification per PRN 2007-4 – Add non-refillable container handling text
Product Name: Fluthiacet-methyl Technical
EPA Registration Number: 279-9550
Application Date: September 5, 2014
Decision Number: 495084

Dear Dr. Chukwunenye,

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4. The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN-2007-4.

The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification via PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Beth Benbow at 703-347-8072 or by email at Benbow.bethany@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Beth Benbow for".
